GEN. SECRET. 1078 MUZ 22-23

K.R. Srinivasiengar, Esq., M.A.,

Muzrai Commissioner in Mysore.

To

The Secretary to Government, Muz 215-22-1

Revenue Department.

Sir,

I have the honor to state that in Government Proceedings No.30-3/M.F.143-15-15 dated 3rd July 1916, plans and estimates costing in the aggregate Rs.34,595/- for the construction of the Sri Uttaradi Matha and other connected buildings as in the *margin on the new site purchased by the Matha in the Sankarapur extension, Bangalore, were approved and the Swamy's proposal to entrust the supervision of the construction work to a Committee consisting of Messrs. C.-Madava Rao, C.Krishna Rao and S. Kesava Rao, was also sanctioned.

* Main building and temple	Rs. 8,400/-
Patasala	8,050/-
Pandits' quarters...	8,490/-
Students' block ...	2,125/-
Archak's quarters	2,550/-
Guard-room	1,140/-
Compound, gate, etc.	3,840/-

Subsequently Mr. R.S. Navaratna was appointed as a member of the Committee in Government Proceedings No.1026-7/M.F.213-17-2 dated 2nd November 1917 in the vacancy caused by the death of Mr. S.Kesava Rao.

In modification of the arrangement ordered in para 2 of the order of the 3rd July 1916, Government in their Proceedings No.791-4/M.F.179-16-2 dated 7th October 1916, authorised the payments for work done to be made on bills presented by the Committee and countersigned by the Superintending Engineer, Southern Circle.

2. Nine measurement bills amounting to Rs.26,446-0-5 have been paid up-to-date and the following items of work out of the approved plan are reported to have been completed:--

(i) Main building and temple,
(ii) Pandits' quarters,
(iii) Archak's quarters,
(iv) Guard-room, and
(v) Compound wall, gate etc.

Mr. Madava Rao states that the remaining items of work out of the approved plan had to be suspended on account of the abnormal rise in the cost of materials and labour owing to the out-break of the war.

3. An estimate for Rs.5,000/- for the construction of a first floor to the main building and two bills for work done and iron girders etc. purchased having been received from the Executive Engineer, Bangalore Division, for sanction and payment of the amounts, respectively, it was pointed out to him that the construction of a first floor was unauthorised in as much as it was not one of the items included in any of the original estimates and that no payment could be made without first obtaining the formal orders of Government in the matter.

In his letter dated 12th October 1922 Mr. C. Madava Rao explains that as the need of a building for Patasala was badly felt and that as there was no likelihood of taking up the construction of an independent structure in the near future, the addition of a first floor to the main building with a view to its utilization for locating the Patasala was taken up as desired by the Swamigalu and requests that as the work is nearing completion, early orders may be issued for payment being made for the work done. A well near the temple is also being sunk and the cost thereof is proposed to be met from the annual tasdik grant of the Matha.

4. In this connection I may observe that the amount retained in the hands of Government at the time of the restoration of the Matha properties and subsequent accretions to it, after all belongs to the Matha and the Swamy is at liberty either to modify or to deviate from the -- estimates originally approved by Government so long as such modification or deviation will not materially alter the plan of the buildings or result in unnecessary waste of institution funds. With this view, I beg to recommend that the construction of the first floor to the main building at a cost of Rs.5,000/- which has been undertaken by the Committee may be approved.

5. I also solicit the sanction of Government to make payments to the extent available at the credit of the Matha (which amounted to Rs.6,639-1-9 on the 30th January 1922 according to Comptroller's figure) on bills presented by the Committee and countersigned by the Executive Engineer, Bangalore Division, now that the place of Superintending Engineer has been abolished in the recent reorganization of the Public Works Department.

6. The favour of early orders is requested as the contractor who has been doing the work and the firm in Bombay who supplied the iron girders are reported to be pressing for payment.

I have the honor to be,

S i r,

Your most obedient servant,

Muzrai Commissioner.

amounting to Rs. 26,446-0-5 have been paid up-to-date and that X marginally-noted items of work out of the approved estimate have been completed. He brings to notice that the remaining items of work are reported to have been suspended on account of the present abnormal rise in the cost of materials and labour, but that as the need for a building for a Pathasala was badly felt and as there was no likelihood of taking up the construction of an independent structure in the near future, the addition of a first floor to the main building with a view to its utilisation for locating the Pathasala was taken up at an estimated cost of Rs. 5000 as desired by the Swamiyar, and that this work is reported to be nearing completion. Rao Bahadur Madhava Rao requests early orders on the question of sub-

payment for work done; the Mavrgnai Committee recommends that the construction of the first flow which has been undertaken by the Committee at a cost of Rs. 5000 may be approved, and also solicits Your sanction to make payments for work done to the extent of funds available at the credit of the Mathas (which amounted to Rs. 6639-1-9 on 30th January 1922) on bills presented by the Committee and countersigned by the Executive Engineer, Bangalore Division, as the place of Supdtg. Engineer has been abolished in the recent reorganisation of the Public Works Dept.

Your accept the recommendation of the Mavrgnai Committee and am pleased to approve of the construction of the first flow referred to above and to authorise payments to be made by him for work done on bills presented by the Committee and countersigned by the Executive Engineer, Bangalore Division, up to a limit of
